

PERIODONTICS & IMPLANT DENTISTRY PA
Bear Brook Study Club

WEDNESDAY MARCH 25, 2020 - ALL DAY SEMINAR

Chandur Wadhvani, DDS, MSD – Prosthodontist

Private Practice, Bellevue, Washington

**Predicting the Future in 2020:
Success or Failure of Dental Implants**

Course Synopsis

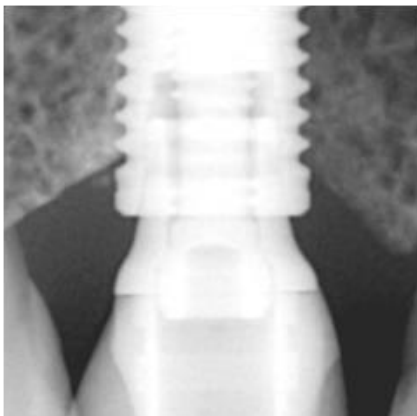

Implant dentistry is complex. There are many variables that can alter the result and longevity of implant restorations.

This course will address many variables including:

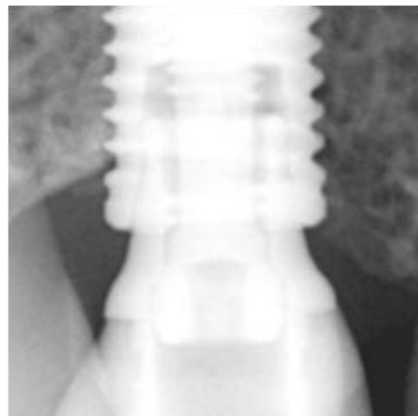

- Monitoring the health of dental implants –what you must do
- Disease mechanisms associated with peri-implantitis
- Occlusion on implants
- Screw mechanics – how to tighten a screw to optimize preload – calibrating your torque wrench
- Ceramics and implants –what is true and what is not
- Titanium metal modifications – colorizing titanium
- Cements
- Angulated screw channel problems to overcome
- Components- real vs fake –which is better
